Financial
assistance is
available for
eligible patients*

YourBlueprint can connect eligible patients with financial assistance options to help them access AYVAKIT.

Co-Pay Assistance Program

This program helps eligible, commercially insured patients pay as little as \$0 for every prescription of AYVAKIT, with a maximum annual benefit of \$25,000.

Patient Assistance Program (PAP)

This program helps eligible patients who lack insurance coverage or are ineligible for the Co-Pay Assistance Program receive AYVAKIT at no cost.

An array of options for your patients

YourBlueprint™ offers the following no cost options to patients who need assistance accessing AYVAKIT™ (avapritinib)*:

QuickStart

Provides a 15-day supply of AYVAKIT in the event of a coverage-related delay

Coverage Interruption

Provides short-term supplies of AYVAKIT to patients who are experiencing a lapse in coverage

Dose Exchange

This program allows patients to trade in their remaining medication for a new dosage in the event of a dose adjustment.

Getting started

It can be difficult to predict if your patients will encounter coverage delays or situations that require financial assistance. By initiating the YourBlueprint enrollment process as soon as you prescribe AYVAKIT, you can help your patients receive the support they need, when they need it. Help your patients avoid therapy delays by completing an enrollment form or calling YourBlueprint to speak with a Case Manager.
